Seven years ago, Revolution Prep was founded with the vision of using technology to transform Education while remaining true to a social mission. By attracting and retaining a group of dedicated, talented and performance-minded individuals, Revolution Prep has become a national leader in Educational services and software. The company has achieved triple digit growth annually and will generate revenues of \$15MM in 2009. This fun, energetic and youthful company employs 85 people, is profitable and privately held. Over the next five years, Revolution Prep intends to dramatically accelerate growth while maintaining the quality of its products, the excitement of its people and its commitment to social change.

Now is your chance to join this incredible team, through our Entrepreneurial Management Program. Spend your first 12 to 18 months in the company's home office in Santa Monica, CA earning a "mini MBA", learning the intricacies of our organization while working as an integral part of our high-energy inside sales team. Upon successful completion of the program, top performers will be promoted to a Regional Manager position where they will be responsible for a million dollar plus sales region.

During our corporate presentation, we will provide a brief overview of the company, discuss the EM program details, and provide application instructions - as well as answer any questions you have. We look forward to your attendance and to the possibility of working with you in the future!!
